Dear Marc,

Sorry I didn't get back to you sooner, but we were away for a few days.

When Lonny recommended you, I told him to make sure that you can identify with a bunch of 70 year olds, and not children.

I can't believe how well you were able to adapt to both age groups at the same time. Of course, the kids are probably more mature than the 70 year olds .

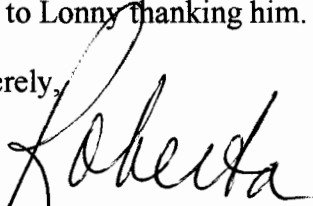

Seriously, though, you made my party. My friends said it would be one that would be remembered for a long time – and I know that a lot of the reason is because of your charm, personality and magic. I remember turning around at one point seeing about 20 people clustered around you in the den, applauding and laughing and having a fabulous time.

I'm enclosing the pictures that I have of you performing. Unfortunately, there are only three – but I think they show the happiness that you brought us.

By the way, Jack says to send us a check for the royalties for parrot joke. I understand you missed the end of the elephant one, so call and he'd love to tell it again.

Please send any references you need to us – we'd love to give one. I did send a letter to Lonny thanking him.

Sincerely,

Roberta Glucksman
